

I oppose any reduction or removal of the do not call law in New Jersey. The Federal Communication Commission is considering overturning New Jersey's 'Do Not Call' law because it is more stringent than the federal program.

I understand the FCC is considering weaking or removing the do not call law and allow telemarketers to call people despite the fact that they have signed up for the 'Do Not Call' list.

Despite being on the do not call list I receive 3-4 calls a day from telemarketers and persons seeking funds. Before the do not call list request, my phones were constantly ringing often each of my phone numbers receiving the same call .

My mother-in-law is quite ill and we are the only contact she has now we need to have the phone available to her if she has a medical emergency - and a return to the constant barrage of calls will limit our ability to be attentive to her.

Please do not reduce the power of this law, I get piles of mail daily much of it junk mail but it is a very reasonable opportunity for marketers to reach me, they do not also need to disturb my limited "family time"

Thanks You
